The wet surface of the tarmac reflects the bright orange and yellow light of the setting or rising sun, creating a shimmering effect. The aircraft's registration 'OEX' is visible on the nose landing gear. The word 'AIRLINK' is written in large blue letters on the side of the fuselage, with 'flyairlink.com' written below it in smaller blue text. HOEDSPRUIT ENDANGERED SPECIES CENTER

The Hoedspruit Endangered Species Centre is a unique African wildlife facility focusing on conservation and the sustainability of rare, vulnerable and threatened species. Founded on passion, the centre has adopted a holistic approach to its conservation activities, such as the educating of surrounding communities, tourism, breeding, rehabilitation and anti-poaching, to name a few. This is a absolute must visit.

MOHOLOHOLO REHAB CENTER

Moholoholo Wildlife Rehabilitation Centre is extremely proud of its efforts in wildlife education in South Africa. At Moholoholo we are often faced with the difficult decision of what to do with an injured or poisoned animal which will not be able to be released back into the wild. As a result, we have a number of “permanent residents” at the centre and at our own cost we use them as “ambassadors” for their respective species.

BLYDE DAM BOAT CRUISE

Located beneath the distinctive, towering peaks of the famous Three Rondawels and with views of Mariepskop - the highest summit in the Drakensberg escarpment range - the Blyde Dam is fringed by these soaring mountains and thick montane forests. "Flying safaris are offered to allow our guest to experience flying in a Bantam microlight. Our guest has the option to sit and experience the flight and view the game or they can have hands on experience from the first flight should they so wish. The choice is theirs."

We offer one-hour long flights over the scenic, Lowveld section of the Blyde River, 15 km West of Hoedspruit. The terrain is a mixture of farmland, private nature reserves and wildlife estates. The mountains to the South and West provide shelter from the prevailing winds, thereby affording us good flying weather on most days. As the sun rises, the landscape, the vegetation and, if you're lucky, some wildlife will provide photo opportunities. Game spotting cannot be guaranteed but on most flights we see plains game like giraffe and wildebeest. NB : This activity is very dependant on wind conditions
